Midwest Regional Medical Center

MIDWEST CITY, OKLAHOMA

M. J. HARRIS, INC. celebrated the “topping out” of the 7th and 8th floor vertical expansion at Midwest Regional Medical Center in Midwest City, Oklahoma.

“The project was initiated in response to the demand of our services,” stated Page Vaughan, Midwest Regional Chief Executive Officer. “Our primary service area is eastern Oklahoma County which continues to grow, and as a result, we have an obligation to continue to meet the healthcare needs of our community,” said Vaughan.

The 7th and 8th floor addition consists of all patient rooms adding a total of 100,000 square feet of new space. When construction completes, the expansion will add 102 beds to the medical center, increasing the total count from 255 to 357.

Construction began at the end of May 2009 and will complete in August of 2010.
